

1<sup>st</sup> February 2007.

Rt. Hon. Michael Jack MP,  
Chairman of Select Committee,  
Environmental, Food and Rural Affairs  
House of Commons,  
Westminster,  
London.  
SW1A 0AA

Dear Sir,

**Refurbishing Cans – Reducing CO2 gas emissions.**

I believe this email from WRAP says it all with regard to getting any help from this government, they are more interested in targets than taking an interest in anyone who has a project that take more than eighteen months to achieve its target. I also enclose my email reply with a bit more information. I didn't expect to get any assistance

Could you let me know when the Select Committee will be discussing my project, that is if they are going to discuss it at all, **and whether I will be allowed to attend?**

Yours sincerely,

.....  
Gerry Evans (Mr)
